EI90 test success in Forster Door Systems

forsterfuego.light

We have achieved new test evidence and certification in the Forster Fuego Light System for Pyroguard Protect T-EI90/40-3

Pyroguard Protect T-EI90/40-3 has been successfully tested at Efectis, France in the Forster Fuego Light EI90 System as a single door with side-lite and top-lite with the following features:

- Approved door set dimensions 3 m x 3.4 m
- Leaf: 1510 mm x 2505 mm
- Leaf lite: 1360 mm x 2355 mm
- Side lite: 1310 mm x 2445 mm
- Top lite: 2850 mm x 755 mm
- Certifire Approved

This new test success is the first EI90 door set test using Pyroguard T-EI90/40-3 and we're pleased to confirm it comfortably met the target requirements, achieving EI101 and 127 minutes integrity.
