Test success for Pyroguard Protect EI60 and Forster Fuego Light for single door applications

forsterfuego.light

We have recently completed new testing with Pyroguard Protect (Pyroguard T-EI60/25-3), successfully achieving improved dimensions with Forster Fuego Light for single door applications.

The test featured the following parameters:

- Door set dimensions 3 m x 3.4 m
- Leaf: 1510 mm x 2502 mm
- Leaf lite: 1360 mm x 2372 mm
- Side lite: 1310 mm x 2445 mm
- Top lite: 2850 mm x 755 mm

After a successful result, we're pleased to be able to offer you greater flexibility with multiple solutions now available in steel doors.

Pyroguard Protect is a range of toughened fire safety glass which provides integrity and heat insulation for 30 to 180 minutes (EI Classification). The solution provides 1B1 impact classification, with high performance acoustic properties and UV stability.
