Pyroguard and
Schüco achieve
NEW test success
with aluminium
façade systems!

SCHÜCO

As part of our ongoing collaboration with Schüco, we're excited to share that we have a range of new Pyroguard solutions for aluminium façades.

Featuring the Schüco FW 50 curtain wall system, we can now provide you with a range of certified aluminium solutions that meet EI30 and EI60 fire ratings.

Authorised and approved by Warringtonfire UK, the range covers the following scope:

Construction type: Façade / Curtain wall system

Fire ratings: EI30, EI60

Glass types: Pyroguard T-EI30/18-2, Pyroguard T-EI60/25-3

Frame: Schüco's FW 50+ BF and FW 50+ FR 60 curtain wall systems

All the latest test evidence is now available via our CF5204 certificate which is available to download [here](#). Or if you'd like to discuss how we can help you with your next project, please contact us.
