### Pyroguard and Hydro Building Systems achieve new test success with SAPA aluminium systems

Working in collaboration with Hydro Building Systems, we're excited to share that we've expanded our test evidence with Pyroguard Protect to provide new aluminium solutions for partition walls and doors.

Featuring the SAPA 2086 framing system, we can now provide you with a range of certified aluminium applications that meet EI30 and EI60 ratings.

Authorised and approved by RISE, Sweden AB the range covers the following scope:

**Construction types:** Partition walls / Doors

**Fire ratings:** EI30, EI60

**Glass types:** Pyroguard T-EI30/18-2, Pyroguard T-EI30/18-2 VI, Pyroguard T-EI60/25-3, Pyroguard T-EI60/25-3 VI

**Frame:** SAPA 2086 EI30 and SAPA 2086 EI60 are part of the Thermo 86 series and are built on a strong and stable 86 mm deep profile construction, featuring 42 mm glass fibre-reinforced polyamide strips and SAPA Thermo N9 insulating rods for superior energy efficiency.
